INTRODUCTION

Profile : This socio-demographic profile outlines the age structure, educational attainment levels and labour force activity of the Aboriginal and Non-Aboriginal populations of Alberta and selected urban areas in 2001.

Data Source : Statistics Canada, 2001 Census of Canada.
The Aboriginal data is derived from the ethnic origin (ancestry) question.

Report : The summary section of the profile compares the socio-demographic characteristics of the Aboriginal population of Alberta, Calgary, Edmonton, Fort McMurray, Grande Prairie, Lethbridge, Red Deer and St. Albert. The remainder of the report outlines the socio-demographic characteristics of the Aboriginal and Non-Aboriginal populations of these areas.

Points to Note :
(a) Percentages may not add to 100 due to rounding.
(b) Aggregate totals are different from overall totals. Statistics Canada uses the procedures of random rounding and area suppression to prevent the possibility of associating statistical data with an identifiable individual.
(c) Fort McMurray refers to the former City of Fort McMurray - boundaries are approximate.

Definitions :
(a) Aboriginal refers to a person who reported at least one Aboriginal ethnic origin, that is, North American Indian, Metis or Inuit.
(b) Unemployment rate refers to the unemployed expressed as a percentage of the labour force in the week (Sunday to Saturday) prior to Census Day (May 15, 2001) (page 74, 2001 Census Dictionary).
(c) Participation rate refers to the labour force in the week (Sunday to Saturday) prior to Census Day (May 15, 2001), expressed as a percentage of the population 15 years of age and over, excluding institutional residents. (page 71, 2001Census Dictionary).
(d) Employment income refers to the total income received by persons 15 years of age and over during the calendar year 2000 as wages and salaries, net income from non-farm unincorporated business and/or professional practice and net farm self-employment income. (page 33, 2001 Census Dictionary).
(e) Government transfer payments refers to the total income from all transfer payments received from federal, provincial, or municipal governments during calendar year 2000. (page 33, 2001 Census Dictionary).
